FRIDAY MORNING, FEBRUARY 4, 1876.

BEING absent for eight or ten days
on a trip to Glasgow, we have left
the editorial control of the paper
with our friend W. S. Greenlee.

It is so seldom that we find any-
thing in a Democratic Congressman
to commend that we take great pleas-
ure in noting the fact that Hon. Da-
vid Rea both spoke and voted against
the recent Centennial steal in Con-
gress.

The Ex-Confederates were to cele-
brate the birth-day of Gen. Robert
E. Lee, yesterday at Richmond, Va.,
in a grand style, and to renew the ef-
fort to raise money for the Lee mon-
ument. All because he betrayed the
government that educated him.

Sam Frodsham informs us that the
Democratic party are imposing upon
the worthy chairman of the demo-
cratic central committee; that 99 per
cent of the democratic party of the
county have urged their claims for
office upon the Doctor. Our demo-
cratic friends should be more consid-
erate, the Doctor can not stand every-
thing.

THE Patron of Husbandry (Dem.)
attempts to make some capital out of
the fact that the editor of the RE-
PUBLICAN was a Liberal in 1870. Well
what if he was? He may have long
since seen the folly of that course
and returned to the fold. But where
does the Patron stand? We are cred-
ibly informed that he has been Re-
publican, Liberal, democrat, independ-
ent, Patron, reformer, temperance,
whisky advocate, since 1870. "Per-
sons who live in glass houses" &c.

On Tuesday, the 28th ult., in Gen-
try county, about three miles south-
west of Albany, another fearful trag-
edy was enacted. A Mrs. Hudson
and her son Samuel, on one side, and
a school teacher named Peter Price,
on the other, being the parties to the
affair. It seems that Mr. Price had
previously requested persons known
to be afflicted with cutaneous eruptions,
vulgarly called "itch," to ab-
sent themselves from his school. This
request enraged the Hudson family,
and they adopted various plans for
revenge, and on the day above named
Mrs. H. and Samuel entered the
school-room and commenced a quar-
rel with Price, which culminated in
Samuel stabbing Price in the left
breast. From appearances it seems
that the wound will prove fatal. Mrs.
Hudson and Samuel have both been
arrested and held to await the issue
of the wound.

A stranger reading the Democratic
P of H. published at this place, would
conclude that Brother Taylor, the ed-
itor of the REPUBLICAN, was a man
of note, the whole editorial labor of
the numerous editors of that sheet,
has some thing at him. Is this true
journalism? Is such stuff interesting
to the readers of the county papers;
would it not be better for the editors
of that sheet to write up Rosendale,
Bolckow, Rochester, Empire Prairie,
or some other Point correspondence
for their paper.

ONE day last week a young man
named Tweddle, while working at a
circular saw mill in Gentry county,
by some means became entangled in
the machinery and was thrown
against the saw, which cut his head
in two from the top to the neck, caus-
ing instant death.

al news, see inside.

THE crime of rape is fearfully on

ous than the most ferocious wild

Meandering Essence of Corn.

The jury found Wm. McKee, of the
Globe-Democrat, guilty of conspiracy
to defraud the government—sentence
has not been passed yet.

The following is the section of the
Statute under which he was convicted:
SECTION 5440. If two or more per-
sons conspire either to commit any of-
fense against the United States, or to
defraud the United States in any man-
ner, or for any purpose, and one or
more of such parties do any act to effect
the object of the conspiracy, all parties
to such conspiracy shall be liable to a
penalty of not less than \$1,000 and not
more than \$10,000, and to imprison-
ment not more than two years.

Col. McGuire has compromised with
the government. It is presumed that he
will give testimony in the other cases,
the felony, count was *nolle prosequi*, and
he plead guilty to misdemeanors.

THAT Independent Grange Re-
form, Temperance Sheet, called the
Patron, designated as a Democratic
paper, after for sufficient consideration
advocating the election of W. B. Al-
len, Esq., to the office of Collector,
now in its last (or this) week's issue,
severely criticises the official con-
duct of the collector. We suppose
the county court did its duty in set-
tling with the collector, and if so,
there is no grounds for the criticisms
of the Patron. If there has been a
dereliction of duty, "Let no guilty
man escape." How will the Patron
like a strict enforcement of collection
of taxes?

Results at the Dedication—Bar-
nard M. E. Churen.

MR. EDITOR: The dedication al-
luded to in your columns last week
came off on last Sabbath, and was a
decided success. A sermon based
on the passage in 2d Chron. 7-1 was
followed by a call for \$500, to meet
all claims and some additional im-
provements; was responded to in the
sum of \$575 in cash, and installment
notes, after which the house was sol-
emnly consecrated to the worship of
Almighty God. At the evening ser-
vices the building was densely pack-
ed. A revival meeting had been go-
ing on during the week, and several
converted; but now, the meeting
seemed to receive a new impetus, and
several were engaged in seeking the
Divine favor. A general work of
grace is anticipated. The pastor de-
serves great credit; he has not only
labored faithfully in word and doc-
trine, but with his hands, and now
has the pleasure of seeing the second
house of worship completed under
his direct supervision. X.

stantials of life, the annual feast was
hugely enjoyed by all present.

SALEM.

Mr. Morrison, Chairman of the
Ways and Means Committee in the
U. S. House of Representatives, has
shown his patriotism and reverence
for the "lost cause" by appointing
as chief clerk of his committee, an ex-
rebel, who three years ago christened
his infant son "John Wilkes Booth,"
in honor of the assassination of Pres-
ident Lincoln.

THE Democratic newspapers are get-
ting restless over numerous proposi-
tions of the Democratic members of
Congress to reduce expenses and their
slowness in adopting them. The Ev-
ansville (Ind.) Argus bluntly remarks
that "the way to reduce is to reduce,"
and intimates to its Democratic friends
that a very proper place to commence
would be on their own salaries.

From Benton Township.

EDITOR REPUBLICAN.

Dear Sir, the people of this town-
ship nearly all read your paper, think-
ing it would be interesting to them
to see a short notice of our township
affairs in your columns, I send you
the following items.

This township supports two lit-
erary societies the exercise consist-
ing mostly of debates, declamations,
and select readings in which both
old and young contend for the
laurels.

The winter thus far has been favor-
able for evening entertainments and
as a consequence young folks socia-
bles have been quite numerous, I had
the pleasure of being one of the
many to attend a sociable held at the
residence of David Wyatt. I am sat-
isfied that Benton cannot be beaten for
its good looking girls, they kept com-
ing in until I began to think some of
us homely young men would have to
be hung up on nails to make room
for them.

Mr. Editor, were you ever at a party
surrounded on all sides by beau ty
and suddenly asked to kiss the pret-
tiest girl in the room? If you were
and a little bashful you can imagine
my feelings. But after the ice was bro-
ken everybody seemed to do their
best to make enjoyment, supper be-
ing announced we all sat down, our
kind host and wife assisted by their
son and daughter were engaged in
trying to make the evening pass as
pleasantly. I am satisfied that
all went home highly delighted.

More anon, B.

Flag Springs Items.

FLAG SPRINGS, Mo., Feb. 1, 1876.

The weather is cold and items scarce.
The protracted meeting that has been
in progress at this place for the last ten
days will close to-day. The visible ef-
fect of the meeting is limited, only two
conversions and four additions being
made. The attendance was very large.
Rev. Williams, who conducted the meet-
ing, is one of the ablest ministers we
have listened to in a long time. We
hope that his preaching is as bread cast
upon the waters, that will be gathered
many years hence.

PERSONALS.

A Mr. Davis, formerly from Illinois,
has moved into the house formerly oc-
cupied by W. H. Clarke.

J. M. Shepard is intending to remove
to Illinois shortly. He is a good citi-
zen, and we regret to give him up.

Dr. W. A. Lockett, who lives about
three miles south of here, is talking of
moving into Flag Springs.

Mr. James Meek and family, of Buch-
anan county, are visiting their relations
in this neighborhood.

Mr. Philip Boyles, of Holt county,
formerly of Andrew, was in our village
last week.

FARMING.

Notwithstanding our ill luck last sea-
son, farmers are making preparations
for a large crop next season. Those
who have had to rent have no trouble
in finding renters.

Should anything happen worthy of
note, you will hear from us again.

Yours, Gus

Cherry Pectoral

For Diseases of the Throat and Lungs,
such as Croup, Whooping
Cough, Bronchitis, Asthma,
and Consumption.

Among the great
discoveries of modern
science, few are of so
much real value to
mankind as this
effective remedy for all diseases
of the Throat and
Lungs. A vast tri-
al of its virtue
throughout this and
other countries, has
shown that it does
surely and effectually control them. The
testimony of our best citizens, of all ages, es-
tablishes the fact, that Cherry Pectoral
will and does relieve and cure the afflic-
tious disorders of the Throat and Lungs beyond
any other medicine. The most dangerous affec-
tions of the Pulmonary Organs yield to its
power; and cases of Consumption, cured
by this preparation, are publicly known, and
remarkable as hardly to be believed, were
they not proven beyond dispute. As a remedy
it is adequate, on the whole, the public may
rely for full protection. By curing Coughs
the forerunners of more serious diseases,
saves unnumbered lives, and an amount of
suffering not to be computed. It challenges
trial, and convinces the most sceptical.
Every family should keep it on hand as
protection against the early and unperceived
attacks of Pulmonary Affections, which are
easily met at first, but which become incur-
able, and too often fatal, if neglected. Tender
lungs need this defence; and it is unwise to
be without it. As a safeguard to children
amid the distressing diseases which beset the
Throat and Chest of childhood, Cherry
PECTORAL is invaluable; for, by its timely
use, multitudes are rescued from premature
graves, and saved to the love and affection
centered on them. It acts speedily and surely
against ordinary colds, securing sound and
health-restoring sleep. No one will suffer
troublesome Influenza and painful Bron-
chitis, when they know how easily they can
be cured.

Originally the product of long, laborious
and successful chemical investigation, no co-
lor or taint is spared in making every bottle in the
utmost possible perfection. It may be con-
fidently relied upon as possessing all the vir-
tues it has ever exhibited, and capable of
producing cures as memorable as the greatest
it has ever effected.
